

Manthan Raut

AI Engineer | Generative AI | AI Agents | Automation

Pune, Maharashtra, India | GitHub | LinkedIn | Portfolio

SUMMARY

AI and Data Science undergraduate focused on building production-oriented **Generative AI, Agentic AI, RAG systems, LLM workflows, and automation platforms**. Experienced with **Python, FastAPI, LangChain, LangGraph, n8n, React, vector databases, LLM APIs, REST APIs, cloud deployment, and AI-powered full-stack applications**. Built autonomous agents, enterprise workflow automations, ATS intelligence systems, multimodal AI applications, and document-grounded RAG pipelines.

EDUCATION

Zeal College of Engineering & Research (ZCOER), Pune **2024 – 2028**
B.Tech. in Artificial Intelligence & Data Science *3rd Year*

EXPERIENCE

GDGOC ZCOER **Oct 2025 – Present**
Web Development Lead *Pune, Maharashtra*

- Lead web development initiatives and ship production features for campus-wide digital platforms using **React.js, Node.js, REST APIs, and Vercel**.
- Conduct hands-on workshops on **n8n AI automation, AI agents, APIs, webhooks, and workflow orchestration**, guiding participants through practical AI workflows.

Cubage Technologies Limited **July 2026 – Sept 2026**
AI/ML Intern – Document Analyzer Project *India*

- Working on an **AI-powered Document Analyzer** involving document processing, information extraction, and machine learning/LLM-based analysis workflows.

SELECTED PROJECTS

Autonomous Internship Agent GitHub
Python, FastAPI, Groq LLM, React, Playwright, Twilio, Gmail OAuth, PostgreSQL/SQLite

- Built an autonomous AI pipeline that scrapes internship opportunities, parses resumes, generates AI search queries, and performs multi-dimensional **LLM matching and scoring**.
- Automated delivery through **Gmail OAuth 2.0 and Twilio WhatsApp**, with a React tracking dashboard and scheduled **GitHub Actions** execution.

TalentSense AI – Resume & Job Match Analyzer GitHub
FastAPI, React, TypeScript, LangChain, LangGraph, Groq, Qdrant, MongoDB, Tavily, Plasmio

- Developed an AI SaaS platform for **ATS simulation, resume-JD matching, multi-JD comparison, skill-gap analysis, and AI career coaching**.
- Implemented **LangGraph agents, Qdrant vector search, Tavily retrieval, Clerk authentication, rate limiting, prompt-injection defenses**, and a Chrome MV3 extension.

AgriSetu – Digital Agriculture Advisory Platform GitHub
FastAPI, React, Supabase, PostgreSQL, PostGIS, pgvector, XGBoost, PyTorch, Gemini, Twilio

- Built a multimodal agricultural AI platform combining **RAG, satellite/weather/soil telemetry, crop recommendation, plant-disease classification, and multilingual advisory**.
- Integrated **XGBoost, EfficientNet-Lite, Gemini Vision/LLM, pgvector, Sentinel Hub, NASA POWER, OpenWeatherMap, and WhatsApp** through a FastAPI gateway.

Enterprise n8n AI Automation Suite GitHub
n8n, OpenRouter, OpenAI, Gmail, Slack, Telegram, Airtable, Apify, Webhooks

- Created **28 AI automation workflows** across sales, marketing, HR, legal, finance, IT, operations, and research using AI agents and structured outputs.
- Implemented **event-driven automation, CRON scheduling, API chaining, conditional routing, batch processing, error handling, and multi-channel notifications**.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, SQL, HTML, CSS
AI / GenAI: LLMs, Generative AI, Agentic AI, AI Agents, RAG, LangChain, LangGraph, Prompt Engineering, Multi-Agent Systems, LLM Orchestration
ML / Data: Scikit-learn, XGBoost, PyTorch, Pandas, NumPy, Feature Engineering, Embeddings, Vector Search, FAISS, BM25
Backend / Full Stack: FastAPI, Node.js, React, Next.js, REST APIs, PostgreSQL, MongoDB, Supabase, PostGIS, Qdrant
Automation / APIs: n8n, Webhooks, API Chaining, GitHub Actions, Gmail API, Slack API, Google Sheets API, Twilio, Telegram API, Apify
Cloud / Tools: Docker, Vercel, Render, Git, GitHub, Playwright, Ollama, OpenRouter, Groq, Gemini
